II. INTRODUCTION

A. Risk Factors

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Kotak Credit Opportunities Fund is the name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs.2,50,000 made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

The Portfolio of Kotak Credit Opportunities Fund will comprise predominantly of Debt and Money Market instruments issued by Corporates/Banks, and to a lesser extent those issued by Central or State Governments. As such, there would be Moderate Credit Risk. Since upto 65% of the portfolio may be invested in securities maturing more than one year, there would be moderate to high Price-risk or Interest-rate risk.

The market for debt instruments [except for Commercial Papers (CPs) & Convertible debentures (Cds)] are relatively less liquid, which may affect buying and selling of the debt instruments thereby increasing the liquidity risk. However CPs and CDs being money market instruments with investment horizon of less than 1 year, are more liquid in nature and hence significantly reduce the risk. Securitised debt are relatively more illiquid in nature when compared to other debt instruments due to which impact cost may tend to increase.

The scheme intends to invest in long dated debt papers , securitized debt and money market instruments. The levels of liquidity at a relatively low for long dated papers/securitised instruments and short dated papers including money market instruments have relatively higher liquidity.

SPECIFIC RISKS IN DEBT MARKETS AND CAPITAL MARKETS

Risks associated with Debt / Money Markets (i.e. Markets in which Interest bearing Securities or Discounted Instruments are traded)

a) Credit Risk:

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Favourability of Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers lenders prefer higher rated instruments further justifying the lower yields.

b) Price-Risk or Interest-Rate Risk:

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

c) Risk of Rating Migration:

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.00% p.a., its market value would drop to Rs. 97.53 (i.e. 2.47%) If the security is up-graded to AAA category which commands a market yield of, say, 9.00% p.a. its market value would increase to Rs102.51 (i.e. by 2.51%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	Yield (% p.a.)	Market Value (Rs.)
AA	10.00	100.00
If upgraded to AAA	9.00	102.51
If downgraded to A	11.00	97.53

d) Basis Risk:

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

e) Spread Risk:

In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

f) Reinvestment Risk:

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently the proceeds may get invested at a lower rate.

g) Liquidity Risk:

The corporate debt market is relatively illiquid vis- a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information (SAI).

Risks associated with Securitised Debt:

The Schemes may from time to time invest in domestic securitised debt, for instance, in asset backed securities (ABS) or mortgage backed securities (MBS). Typically, investments in securitised debt carry credit risk (where credit losses in the underlying pool exceed credit enhancement provided, (if any) and the reinvestment risk (which is higher as compared to the normal corporate or sovereign debt). The underlying assets in securitised debt are receivables arising from automobile loans, personal loans, loans against consumer durables, loans backed by mortgage of residential / commercial properties, underlying single loans etc.

ABS/MBS instruments reflect the proportionate undivided beneficial interest in the pool of loans and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. Investments in securitised debt is largely guided by following factors:

- Attractive yields i.e. where securitised papers offer better yields as compared to the other debt papers and also considering the risk profile of the securitised papers.
- Diversification of the portfolio
- Better performance

Broadly following types of loans are securitised:

a) Auto Loans

The underlying assets (cars etc.) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed. These loans are also subject to model risk. i.e. if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning

bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclicity in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

b) Housing Loans

Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

c) Consumer Durable Loans

- The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult.
- The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

d) Personal Loans

These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money. Further, all the above categories of loans have the following common risks:

- All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.
- In India, there is no ready database available regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record.
- In retail loans, the risks due to frauds are high.

e) Single Loan PTC

A single loan PTC is a securitization transaction in which a loan given by an originator (Bank/ NBFC/ FI etc.) to a single entity (obligor) is converted into pass through certificates and sold to investors. The transaction involves the assignment of the loan and the underlying receivables by the originator to a trust, which funds the purchase by issuing PTCs to investors at the discounted value of the receivables. The PTCs are rated by a rating agency, which is based on the financial strength of the obligor alone, as the PTCs have no recourse to the originator.

The advantage of a single loan PTC is that the rating represents the credit risk of a single entity (the obligor) and is hence easy to understand and track over the tenure of the PTC. The primary risk is that of all securitized instruments, which are not traded as often in the secondary market and hence carry an illiquidity risk. The structure involves an assignment of the loan by the originator to the trustee who then has no interest in monitoring the credit quality of the originator. The originator that is most often a bank is in the best position to monitor the credit quality of the originator. The investor then has to rely on an external rating agency to monitor the PTC. Since the AMC relies on the documentation provided by the originator, there is a risk to the extent of the underlying documentation between the seller and underlying borrower.

Risk Associated with Investment in Derivatives Market

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of

the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investment.

B. Requirement of Minimum Investors in the Scheme

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become

applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

D. Special Considerations:

- Prospective investors should review/study SAI along with SID carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscriptions, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of units within their jurisdiction/nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding units before making an application for units.
- Neither this SID and SAI, nor the units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration and accordingly, any person who gets possession of this SID is required to inform themselves about, and to observe, any such restrictions. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
- Kotak Mahindra Mutual Fund/AMC has not authorised any person to give any information or make any representations, either oral or written, not stated in this SID in connection with issue of units under the Schemes. Prospective investors are advised not to rely upon any information or representations not incorporated in the SAI and SID as the same have not been authorised by the Fund or the AMC. Any purchase or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are not consistent with the information contained herein shall be solely at the risk of the investor. The investor is requested to check the credentials of the individual, firm or other entity

he/she is entrusting his/her application form and payment to, for any transaction with the Fund. The Fund shall not be responsible for any acts done by the intermediaries representing or purportedly representing such investor.

- If the units are held by any person in breach of the Regulations, law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations, the Fund may mandatorily redeem all the units of any Unit holder where the units are held by a Unit holder in breach of the same. The Trustee may further mandatorily redeem units of any Unit holder in the event it is found that the Unit holder has submitted information either in the application or otherwise that is false, misleading or incomplete.
- If a Unit holder makes a redemption request immediately after purchase of units, the Fund shall have a right to withhold the redemption request till sufficient time has elapsed to ensure that the amount remitted by the Unit holder (for purchase of units) is realized and the proceeds have been credited to the Scheme's Account. However, this is only applicable if the value of redemption is such that some or all of the freshly purchased units may have to be redeemed to effect the full redemption.
- In terms of the Prevention of Money Laundering Act, 2002 ("PMLA") the rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML) Laws, all intermediaries, including mutual funds, are required to formulate and implement a client identification programme, and to verify and maintain the record of identity and address(es) of investors.
- If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unit holder/any other person.

III. INFORMATION ABOUT THE SCHEME

Kotak Credit Opportunities Fund

A. Type of the scheme:

An open ended debt scheme

B. What is the investment objective of the scheme?

The investment objective of the scheme is to generate income by investing in debt /and money market securities across the yield curve and credit spectrum. The scheme would also seek to maintain reasonable liquidity within the fund.

However, there is no assurance or guarantee that the investment objective of the scheme will be achieved.

C. How will the scheme allocate its assets?

The asset allocation under the Scheme, under normal circumstances, is as follows:

Investments	Indicative Allocation	Risk Profile
Debt, money market instruments & government securities with maturity upto 1 year *	35% to 100%	Low
Debt, Money Market Instruments & government securities with maturity greater than 1 year *	0% to 65%	Low - Medium

*Debt instruments shall be deemed to include securitised debts (excluding foreign securitised debt) and investment in securitised debts may be upto 75% of the net assets of the Scheme.

The total investment value of debt instruments and Notional value of Investment in derivatives like, Interest Rate Swaps, Interest Rate Forwards, Interest Rate Futures, Forward Rate Agreements, etc, if any, shall not exceed 100% of the net assets of the scheme.

Note:

The asset allocation if altered for short-term defensive consideration will be rebalanced within 30 days.

Overview of Debt Market

The Indian Debt Market has grown in size substantially over the years. The Reserve Bank of India has been taking steps to make the Indian Debt Market efficient and vibrant. Broadly, the debt market is divided in two parts viz. the Money Market and the Debt market. Money market instruments have a tenor of less than one year while debt market instruments have a tenor of more than one year. Money market instruments are typically commercial paper, certificates of deposit, treasury bills, trade bills, repos, interbank call deposit receipts etc. Debt market comprises typically of securities issued by Governments (Central and State), Banks, Financial Institutions, and Companies in the private and public sector, Corporations, Statutory Bodies etc.

The debt securities are mainly traded over the telephone directly or through brokers. The National Stock Exchange of India has a separate trading platform called the Wholesale Debt Market segment where trades put through member brokers are reported.

RBI has introduced the Negotiated Dealing System (NDS) platform for screen-based trading in Government Securities and Money Market instruments. Most of the market participants are now operating through NDS.

Promoted by major banks and financial institutions, The Clearing Corporation of India Ltd. (CCIL), was incorporated on April 30, 2001. The CCIL guarantees the settlement of all trades executed through NDS. The clearing and settlement risks viz., Counter party Credit Risk and Operational Risk are mitigated by CCIL thereby facilitating a smooth settlement process.

The following table gives approximate yields prevailing as on April 30, 2011 on some of the money and debt market instruments. These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing.

Instrument	Yield Range (% per annum)
Inter bank Call Money	6.90 - 7.00
91 Day Treasury Bill	7.70 - 7.90
364 Day Treasury Bill	8.00 - 8.20
P1+ Commercial Paper 90 Days	9.50 - 9.75
3-Year Government of India Security	7.90 - 8.00
5-Year Government of India Security	8.15 - 8.25
10-Year Government of India Security	8.05 - 8.20

Generally, for instruments issued by a non-Government entity, the yield is higher than the yield on a Government Security with corresponding maturity. The difference, known as credit spread, depends on the credit rating of the entity. Investors must note that the yields shown above are the yields prevailing on April 30, 2011 and they are likely to change consequent to changes in economic conditions and RBI policy.

D. Where will the scheme invest

Subject to the Regulations, the amount collected under this scheme can be invested in any (but not exclusively) of the following securities/ debt instruments:

- Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- Debt obligations of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee
- Corporate debt (of both public and private sector undertakings).
- Obligations/ Term Deposits of banks (both public and private sector) and development financial institutions and other bodies corporate as may be permitted by SEBI from time to time
- Money market instruments permitted by SEBI/RBI, having maturities of up to one year or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements.

- g. Certificate of Deposits (CDs).
- h. Commercial Paper (CPs), CBLO, Bills re-discounting, Reverse repos, & other money market instruments as may be permitted by SEBI from time to time.
- i. Securitised Debt, not including foreign securitised debt.
- j. The non-convertible part of convertible securities.
- k. Debentures
- l. Any other domestic fixed income securities as permitted by SEBI/RBI from time to time.
- m. Derivative instruments like Interest Rate Swaps, Forward Rate Agreements and such other derivative instruments permitted by SEBI/RBI.
- n. Any other instruments/ securities, which in the opinion of the fund manger would suit the investment objective of the scheme subject to compliance with extant Regulations.

The securities/debt instruments mentioned above could be listed or unlisted, secured or unsecured, rated or unrated and of varying maturities and other terms of issue. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals. The Schemes may also enter into repurchase and reverse repurchase obligations in all securities held by it as per guidelines/regulations applicable to such transactions.

Investments in Derivatives

Interest Rate Swap (IRS)

IRS is a widely used derivative product in the financial markets to manage interest rate risk. A typical transaction is a contract to exchange streams of interest rate obligation/income on a notional principal amount with a counter party, usually a bank. The two interest streams are, fixed rate on one side and floating rate on the other.

Example: Suppose the Fund holds a fixed rate bond of maturity 5 years carrying a fixed interest rate (coupon) of 6% p.a. payable half yearly. Such an investment runs the risk of depreciation if interest rates rise. To manage this risk, the Fund can enter into an IRS with another market participant, here the Fund contracts to pay fixed rate, say 5.25% p.a., and receive a floating rate (say overnight MIBOR). This transaction is done for a notional principal amount equal to the value of the investment. By such a contract a fixed rate income is offset by a fixed rate payment obligation leaving only a floating rate income stream. Thus, without actually investing in a floating rate asset, the Fund starts earning a floating rate income, reducing the risk of depreciation associated with the fixed rate investment. Following table summarises the cash flow streams:

Original investment	6% p.a.
Pay (Fixed rate)	5.25% p.a. (IRS)
Receive (Floating rate)	MIBOR
Net Flow	MIBOR + 0.75% p.a. (*)

*(6% p.a. - 5.25 % p.a.)

The floating rate reference is defined in the swap agreement. The above example illustrates a case of fixed to floating rate swap. A swap could be done to move from floating rate to fixed rate in a similar fashion.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into.

Interest Rate Futures

Interest Rate Futures (IRF) contract is an agreement to buy or to sell a debt instrument at a specified future date at a price that is fixed today. Exchange traded IRFs are standardised contracts based on a notional coupon bearing Government of India (GOI)

security. National Securities Clearing Corporation Limited (NSCCL) is the clearing and settlement agency for all deals executed in Interest Rate Futures. NSCCL acts as legal counterparty to all deals on Interest Rate Futures contract and guarantees settlement.

Using IRFs

• Directional trading

As there is an inverse relationship between interest rate movement and underlying bond prices, the futures price also moves in tandem with the underlying bond prices. If one has a strong view that interest rates will rise in the near future and wants to benefit from rise in interest rates; one can do so by taking short position in IRF contracts.

Example:

A trader expects long-term interest rate to rise. He decides to sell Interest Rate Futures contracts as he shall benefit from falling future prices.

Expectation	Position
Interest Rates going up	Short Futures
Interest Rates going down	Long Futures

- Trade Date- 1st July 09
- Futures Delivery date – 1st Sep 2009
- Current Futures Price- Rs. 97.50
- Futures Bond Yield- 7.21%
- Trader sell 250 contracts of the Sep 09 10 Year futures contract on NSE on 1st July 2009 at Rs. 97.50

Assuming the price moves to Rs. 97.25 on Jul 6, 09, net MTM gain would be Rs. 1,25,000 (250*2000*97.50-97.25)...(I)

Closing out the Position

- 7th July 2009- Futures market Price – Rs. 96.60
- Trader buys 250 contracts of Sep 09 at Rs. 96.60 and squares off his position
- Therefore total profit for trader 250*2000*(97.25-96.60) is Rs.3,25,000 (II)
- Total Profit on the trade = INR 4,50,000 (I & II)

• Hedging

Holders of the GOI securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts.

Example :

Date: 01-Jul-2009

Spot price of GOI Security: Rs 105.07

Futures price of IRF Contract: Rs 105.11

On 01-Jul-2009 XYZ bought 2000 GOI securities from spot market at Rs 105.07. He anticipates that the interest rate will rise in near future. Therefore to hedge the exposure in underlying market he may sell Sep 09 Interest Rate Futures contracts at Rs 105.11.

On 01-Sep-2009 due to increase in interest rate:

Spot price of GOI Security: Rs 104.14

Futures Price of IRF Contract: Rs 104.16

Loss in underlying market will be (104.14 - 105.07)*2000 = Rs 1860

Profit in the Futures market will be (104.16 – 105.11)*2000 = Rs 1900

• Arbitrage

Arbitrage is the price difference between the bonds prices in underlying bond market and IRF contract without any view about the interest rate movement. One can earn the risk-less profit from realizing arbitrage opportunity and entering into the IRF contract.

Example:

On 15th July, 09 buy 6.35% GOI '20 at the current market price of Rs. 97.2550

Step 1 - Short the futures at the current futures price of Rs. 100.00 (7.00% Yield)

Step 2 - Fund the bond by borrowing up to the delivery period (assuming borrowing rate is 4.25%)

Step 3 - On 1st Sept '09, give a notice of delivery to the exchange Assuming the futures settlement price of Rs. 100.00, the invoice price would be

= $100 * 0.9815$

= Rs. 98.15

Under the strategy, the trader has earned a return of

= $(98.1500 - 97.2550) / 97.2550 * 365 / 48$

= 7.00 % (implied repo rate)

(Note: For simplicity accrued interest is not considered for calculation)

Against its funding cost of 4.25% (borrowing rate), thereby earning risk free arbitrage.

Limits for investment in derivatives instruments

In accordance with SEBI circulars nos. DNP/Cir-29/2005 dated September 14, 2005, DNP/Cir-30/2006 dated January 20, 2006 and SEBI/DNP/Cir-31/2006 dated September 22, 2006, the following conditions shall apply to the Scheme's participation in the derivatives market. The investment restrictions applicable to the Scheme's participation in the derivatives market will be as prescribed or varied by SEBI or by the Trustees (subject to SEBI requirements) from time to time.

i. Position limit for the Mutual Fund in equity index options contracts

- The Mutual Fund position limit in all equity index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in equity index option contracts, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for the Mutual Fund in equity index futures contracts:

- The Mutual Fund position limit in all equity index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest in the market in equity index futures contracts, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging

In addition to the position limits at point (i) and (ii) above, Mutual Fund may take exposure in equity index derivatives subject to the following limits:

- Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
- Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for the Mutual Fund for stock based derivative contracts

The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, :-

- For stocks having applicable market-wise position limit (MWPL) of Rs. 500 crores or more, the combined futures and options position limit shall be 20% of applicable MWPL or Rs. 300 crores, whichever is lower and within which stock futures position cannot exceed 10% of applicable MWPL or Rs. 150 crores, whichever is lower.
- For stocks having applicable market-wise position limit (MWPL) less than Rs. 500 crores, the combined futures and options position limit would be 20% of applicable MWPL and futures position cannot exceed 20% of applicable MWPL or Rs. 50 crore whichever is lower.

v. Position limit for the Scheme

The position limits for the Scheme and disclosure requirements are as follows-

- For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of the Mutual Fund shall not exceed the higher of:
 - 1% of the free float market capitalisation (in terms of number of shares).
 - Or
 - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
- This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
- For index based contracts, the Mutual Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

As and when SEBI notifies amended limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

As per SEBI circular no. Cir/IMD/DF/11/2010 dated August 18, 2010 on "Review of norms for investment and disclosure by Mutual Funds in derivatives", the limits for exposure towards derivatives are as under:

- The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
- Mutual Funds shall not write options or purchase instruments with embedded written options.
- The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
- Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- Exposure due to hedging positions may not be included in the above mentioned limits subject to the following :-
 - Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
- Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.

E. What are the investment strategies?

To achieve the investment objective, the scheme would seek to invest in debt instruments of varying credit – investment grade and above with the intent of maximizing yields and at the same time ensuring reasonable liquidity.

The objective of the scheme is to try and create a reasonably diversified portfolio comprising debt instruments like debentures, securitized debt in the form of well seasoned pools / single loan PTCs etc. The scheme would also try to capitalize on investment opportunities in debt segment which are currently mispriced, and which in the view of the fund manager has a potential for some rectification.

For instance if the current spread between 3 month and 6 month assets say a CD is at 1%. This in the opinion of the fund manager may be too steep which could see some contraction going

forward. The scheme would therefore seek to take position in the 6 month asset. Likewise a rating migration view may be taken by the fund manager which could warrant him to take position in the respective credit.

Similarly food bonds which are backed by Government of India guarantee, tend to trade at spreads higher than Convertible Debentures (CDs) of similar maturities. State development loans also are currently trading at a higher spread (currently 75-100 bps over central government debt) and with state finances improving a case for compression may not be ruled out.

Securitized debt comprising of single loan PTCs tend to offer a premium over debentures.

For evaluating debt investments, the overall macro economic environment, the business the company belongs to and the overall growth prospects for the company will be evaluated. Statistical ratios like debt equity, Return on net worth, debt servicing ability etc will also be monitored to aid the investment decision.

The credit committee has laid down internal norms which need to be adhered to by the fund manager before investing in any debt instrument. The overall view on interest rate going forward would determine the duration of the portfolio.

However, there is no assurance or guarantee that the investment objective of the scheme will be achieved.

Risk Control Measures for investment strategy

The investment committee would endeavor to review the portfolio composition and its strategy on a periodic basis and

suggest corrective measures, if any..

Risk Mitigation measures for portfolio volatility

The fund is not likely to be a very high churn portfolio as the fund manager would seek to identify relatively high on accrual assets. Hence the volatility element in the portfolio is not expected to be very significant. This does not obviously include the portfolio churn on account of underlying investor transactions of purchase / redemptions etc.

Risk mitigation measures for managing liquidity

The scheme proposes to invest at least 35% of its corpus in upto 1year assets. This segment is the most liquid segment the debt secondary market and can be liquidated in case of unusual redemptions from the fund.

Product Differentiation:

The fund manager in his/her perception may find a particular sector / asset type mispriced thereby making a case for an investment opportunity. Hence there may be a concentrated bias toward that asset type or sector. For instance if NBFCs as a segment is viewed as offering a reasonably high yield premium over corporates, the fund maybe weighted towards NBFCs. Likewise if well single loan PTCs offer substantial spreads over a debentures, the fund may increase allocation to the same. The scheme when compared to other long bond funds such as Kotak Mahindra Bond Unit Scheme 99, will have relatively lower maturity as reflected by its benchmark index – Crisil Short Term Bond Fund Index.

Stated below are the key features of other open ended schemes of Kotak Mutual Fund.

Scheme Name	Investment Objective	Investment Strategy
Kotak Mahindra Bond 99 Unit Scheme	To create a portfolio of debt instruments of different maturities so as to spread the risk across a wide maturity horizon and different kinds of issuers in the debt markets.	The Scheme may invest in listed/unlisted and/or rated/unrated debt or money market instruments/securities, Gilts/ Government Securities, securities issued/guaranteed by the Central/State Governments, securities issued by public/private sector companies/corporations, financial institutions and/ or money market instruments such as commercial paper, certificates of deposit, permitted securities under a repo agreement etc., provided the investments are within the limits indicated in the Investment Pattern Table. The instruments may carry fixed rate of return or floating rate of return or may be issued on discount basis. Investments are made in such instruments, which, in the opinion of the Fund Manager, are an acceptable credit risk where chances of default are at a minimum. The Fund Manager is generally guided by, but not restrained by, the ratings announced by various rating agencies on the assets in the portfolio. The maturity profile of debt instruments is selected in accordance with the Fund Manager's view regarding market conditions, interest rate outlook and stability of rating. The Scheme may invest in call money/term money market in terms of RBI guidelines in this respect. Investment in unrated debt securities is made with the prior approval of the Board of the AMC, provided the investment is in terms of the parameters approved by the Board of the Trustee. Where the proposed investment is not within the parameters as mentioned above, approval of the Boards of both the AMC and the Trustee is taken before making the investment.
Kotak Bond Short Term Plan	To provide reasonable returns and high level of liquidity by investing in debt and money market instruments of different maturities, so as to spread the risk across different kinds of issuers in the debt market.	The Plan may invest in listed/unlisted and/or rated/unrated debt or money market instruments such as commercial paper, certificates of deposit, permitted securities under a repo agreement etc., Gilts/Government securities, securities issued/guaranteed by the Central/State Governments, securities issued by public/private sector companies/ corporations, financial institutions, securitized debts including mortgage backed securities when permitted. The instruments may carry fixed rate of return or floating rate of return or may be issued on discount basis. Investments will be made in instruments, which, in the opinion of the Fund Manager, are an acceptable credit risk and where chances of default are at a minimum. The Fund Manager is generally guided, but not restrained, by the ratings announced by various rating agencies on the assets in the portfolio. Investment in unrated debt securities will be made with the prior approval of the Board of the AMC, provided the investment is in terms of the parameters approved by the Board of the Trustee. Where the proposed investment is not within the parameters as mentioned above, approval of the Boards of both the AMC and the Trustee will be taken before making the investment. The maturity profile of debt instruments will be selected in accordance with the Fund Manager's view regarding market conditions, interest rate outlook, stability of rating and the liquidity requirement of the Plan. The Plan may invest in call money/term money market in terms of RBI guidelines in this respect.

The Scheme may also use various derivative and hedging products from time to time, in the manner permitted by SEBI.</p>
Kotak Floater Long Term Scheme	To reduce the interest rate risk associated with investments in fixed rate instruments by investing predominantly in floating rate securities, money market instruments and using appropriate derivatives.	<p>The Scheme will predominantly invest in floating rate debt securities and money market instruments. It may also invest in debt securities with an outstanding maturity of 1 year or more in accordance with the Investment Pattern table. It will also use appropriate derivatives. The strategy is aimed at reducing interest rate risk.</p> <p>The debt securities, both floating and fixed rate, will mainly comprise listed/unlisted and/or rated/non-rated debt, Gilts/ Government securities, securities issued/guaranteed by the Central/State Governments, securities issued by public/private sector companies/corporations, financial institutions and/ or money market instruments such as commercial paper, certificates of deposit, permitted securities under a repo agreement etc. and the investments will be within the limits indicated in the Investment Pattern Table. Kotak Flexi Debt Scheme	The investment objective of the Scheme is to maximise returns through an active management of a portfolio of debt and money market securities.	<p>The investment strategy is aimed at maximising returns through an active management of a portfolio of debt and money market securities.</p> <p>The Fund Manager would endeavour to manage the portfolio actively among debt securities such as Government Securities, Corporate Bonds and Money Market instruments depending on the view on the interest rates and corporate spreads. In order to be able to churn the portfolio actively, focus would be on investing in securities having high liquidity.</p> <p>The Scheme returns consist of the returns on account of coupon accrual and capital gains. The value of debt securities is inversely related to the interest rate movements. When interest rates rise the value of the debt security falls and when interest rates fall the value of debt security rise. The degree of rise or fall in the value of such security is generally related directly to the maturity of the security.</p> <p>The Government securities dominate the fixed income market in the country. This provides significant trading opportunities in the government securities across the yield curve. The corporate bond market volumes too have picked up after the dematerialisation of corporate debt. Normally the corporate bonds trade at a yield spread to the government security. This spread is the risk premium that the corporates have to pay over the zero sovereign risk. These spreads vary according to the credit rating and offer trading opportunities. The compression of these spreads over the underlying government security lead to a higher return in the corporate bonds than the return available in the Government security.</p> <p>The Scheme will invest in debt securities comprising listed/ unlisted and/or rated/non-rated debt, Gilts/Government securities, securities issued/guaranteed by the Central/State Governments, securities issued by public/private sector companies/corporations, financial institutions and/ or money market instruments such as commercial paper, certificates of deposit, permitted securities under a repo agreement etc. and the investments will be within the limits indicated in the Investment Pattern Table. The Fund Manager may be guided by, but not restrained by, the ratings announced by various rating agencies on the assets in the portfolio. The maturity profile of debt instruments will be selected in accordance with the Fund Manager's view regarding market conditions, stability of rating and interest rate outlook.</p>

F. Fundamental attributes

Following are the fundamental attributes of the scheme, in terms of Regulation 18 (15A) of SEBI (MF) Regulations:

G. How will the scheme benchmark its performance?

The performance of Kotak Credit Opportunities Fund will be measured against CRISIL Short Term Bond Index, as the investments are intended to be at the shorter end of the yield curve.

The Trustee reserves right to change benchmark in future for measuring performance of the scheme.

I. What are the investment restrictions?

The following investment limitations and other restrictions, inter-alia, as contained in the Trust Deed and the Regulations apply to the Scheme:

1. The Scheme shall not invest more than 15% of its NAV in debt instruments [irrespective of residual maturity period (above or below one year)], issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act. Such investment limit may be extended to 20% of the NAV of the Scheme with the prior approval of the Trustee and the Board of the AMC. Provided that such limit shall not be applicable for investments in government securities.

Provided further that investment within such limit can be made in mortgaged backed securitised debt, which are rated not below investment grade by a credit rating agency, registered with SEBI.

2. The Scheme shall not invest more than 10% of its NAV in unrated debt instruments [irrespective of residual maturity period (above or below one year)], issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the Scheme. All such investments shall be made with the prior approval of the Trustee and the Board of the AMC.
3. The Scheme shall not invest more than 30% of its net assets in money market instruments of an issuer. Provided that such limit shall not be applicable for investments in Government securities, treasury bills and collateralized borrowing and lending obligations.
4. Debentures irrespective of any residual maturity period (above or below 1 year) shall attract the investment restrictions as applicable for debt instruments as specified under Clause 1 and 1 A of Seventh Schedule to the Regulations.
5. The Scheme may invest in another scheme under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. However the aforesaid provision will not apply to fund of funds scheme.
6. The Scheme shall not make any investments in:
 - (a) any unlisted security of an associate or group company of the Sponsors; or
 - (b) any security issued by way of private placement by an associate or group company of the Sponsors; or
 - (c) the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets.
7. The Scheme shall not invest in any Fund of Funds Scheme.
8. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-
 - (a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)
 - (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
9. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:
 - Provided that the Mutual Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI.
 - Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.
 - Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

- 10.No term loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or dividends to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.

- 11.The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.
- 12.The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.
- 13.Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as may be amended from time to time.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Apart from the above investment restrictions, the Fund follows certain internal norms within the above mentioned restrictions, and these are subject to review from time to time.

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supercede/override the provisions of the Trust Deed.

Investments by the AMC in the Fund

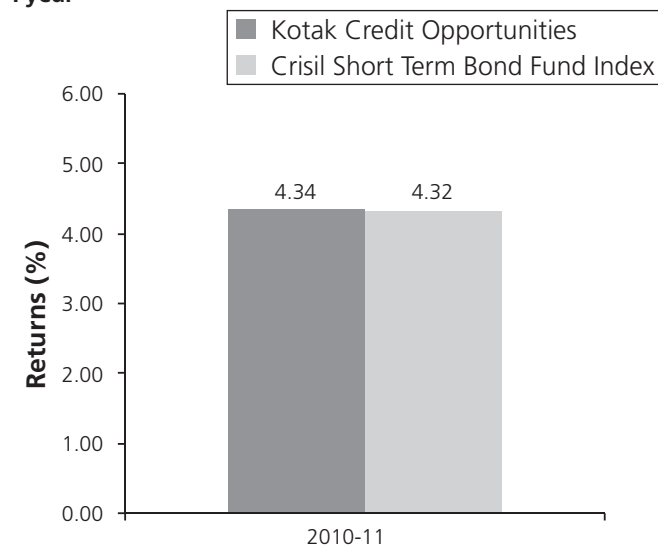

The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time. Under the Regulations, the AMC is not permitted to charge any investment management and advisory services fee on its own investment in the Scheme.

<p>Listing</p>	<p>Since the Schemes are open-ended, it is not necessary to list the Units of the Schemes on any exchange. Liquidity is ensured to investors by the purchase and sale of Units from/to the Fund at prices related to the relevant Applicable NAV for the purpose of purchasing or redeeming Units from the Fund.</p> <p>The Trustee, however, has the right to list the Units under any of the Schemes on any stock exchange/s for better distribution and additional convenience to existing/prospective Unitholders. Even if the Units are listed, the Fund shall continue to offer purchase and redemption facility as specified in this scheme information document. Any listing will come only as an additional facility to investors who wish to use the services of a stock exchange for the purpose of transacting business in the Units of the Schemes.</p>
<p>Special Products available</p>	<p>The Following facilities are available under the Scheme</p> <ol style="list-style-type: none"> 1. Systematic Investment Plan 2. Systematic Transfer Plan 3. Systematic Withdrawal Plan 4. Switching <p>Systematic Investment Plan (SIP): This facility enables investors to save and invest periodically over a longer period of time. It is a convenient way to "invest as you earn" and affords the investor an opportunity to enter the market regularly, thus averaging the acquisition cost of Units. Any Unitholder can avail of this facility subject to certain terms and conditions contained in the Application Form. The Fundamental Attributes and other terms and conditions regarding purchase/redemption, price and related matters are the same as contained in this SID.</p> <p>The first SIP can be for any date of the month on which a NAV is declared in the scheme. In respect of the second and all subsequent SIPs, investors can choose any one date among 1st, 7th, 14th, 21st or 25th as the SIP Date (in case of these days fall on non-business day the transaction will be effected on the next business day of the scheme) and can also choose the SIP frequency as monthly or quarterly subject however, to the condition that there shall be a minimum gap of 28 days between the first and the second SIP. The minimum SIP installment amount is Rs. 1000/-</p> <p>The SIP request should be for a minimum of 6 months / quarters. The SIP payments can be made either by issue of Post Dated Cheques or by availing the Auto Debit Facility through ECS (available in select locations only) or by availing the Direct Debit Facility / Standing Instructions Facility (Unitholders may check with their bankers for availability of this facility). However, the first investment in SIP through the Auto Debit Facility or Direct Debit Facility needs to be made compulsorily by issuance of a cheque from the account from which the Auto Debit / Direct Debit is requested. If the first SIP investment is through a demand draft or pay order or the initial investment cheque is drawn from a bank account, other than the bank account mentioned in the SIP mandate, the investor has to ensure that the bank details and signatures are attested by the banker of the bank from where the SIP is initiated. Alternatively the investors should provide a copy of the cancelled cheque leaf of the bank account from where the investor intends to do the SIP.</p> <p>The load structure applicable for each installment will be as per the load structure applicable at the time of registration of SIP. Changes in load structure effected by the AMC after that date may not be applicable unless stated specifically.</p> <p>Systematic Withdrawal Plan: This facility enables the Unitholders to withdraw (subject to deduction of tax at source, if any) sums from their investments in the Scheme at periodic intervals through a one-time request. The withdrawals can be made either Monthly (on 1st, 7th, 14th, 21st or 25th of every month) or Quarterly (on 1st, 7th, 14th, 21st or 25th,</p>

as the case may be.). In case any of these days fall on non-business day the transaction will be effected on the next business day of the scheme. SWP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of SWP. In case the SWP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle.

Example: for Monthly SWP if the SWP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this SWP will be from 7th February onwards.

This facility is available in two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can seek redemption of a fixed amount of not less than Rs. 1000 from his Unit account. In this option the withdrawals will commence from the Start Date (being one of the dates indicated above) mentioned by the Unitholder in the Application Form for the facility. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. If the net asset value of the units outstanding on the withdrawal date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last SWP installment then the entire amount will be processed along the last SWP installment.

Appreciation Option: Under this option, the Unitholder can seek redemption of an amount equal to a periodic appreciation on the investment.

The Unitholder redeems only such number of Units, which when multiplied by the Applicable NAV is, in amount terms equal to the appreciation in his investment over the last month / quarter.

The investor would need to indicate in his systematic withdrawal request, the commencement / start date from which the appreciation in investment value should be computed. The withdrawal will commence after one month/quarter (as requested by the investor) from the commencement / start date mentioned by the Unitholder in the Application Form and can, at the investor's discretion be on 1st , 7th , 14th, 21st or 25th of the month / quarter.

The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. In case the investor purchases additional Units, the withdrawal amount would include the appreciation generated on such Units as well. In the absence of any appreciation, the redemption under this option will not be made.

For both fixed and appreciation option the provision of minimum redemption amount / units will not be applicable for redemption made under this facility.

Systematic Transfer Plan (STP)

This facility enables the Unitholders to switch an amount from their existing investments in a Scheme/Plan/Option to another Scheme/Plan/Option of the Fund, which is available for investment at that time, at periodic intervals through a one-time request. The switch can be made weekly, monthly or quarterly. Under this facility the switch by the Unitholders should be within the same account/ folio number. The withdrawals can be made either Weekly or Monthly (on 1st, 7th, 14th, 21st or 25th of every month) or Quarterly (on 1st, 7th, 14th, 21st or 25th of the last month in a series of three consecutive months). In case of these days fall on non-business day the transaction will be effected on the next business day of the scheme. The amount so switched shall be reinvested in the other scheme / plan and accordingly, to be effective, the systematic transfer must comply with the redemption rules of transferor scheme and the issue rules of transferee scheme (e.g. exit / entry load etc)

STP registration needs to be submitted to the Registrar/ AMC 7

days prior to the date of commencement of STP. In case the STP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle.

Example: for Monthly STP if the STP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this STP will be from 7th February onwards.

This facility offers two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can switch fixed amount of not less than Rs. 1000/- from his Unit account. In this option the switch will commence from the Start Date mentioned by the Unitholder in the application form for the facility. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be created at the Applicable NAV of such Scheme/Plan/Option on the respective dates. If the net asset value of the units outstanding on the transfer date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last STP installment, then the entire amount will be processed along the last STP installment.

Appreciation Option: Under this option, the Unitholder can seek switch of an amount equal to the periodic appreciation on the investment. Under this option the Unit holder switches only proportionate number of Units, which when multiplied by the applicable NAV is, in amount terms equal to the appreciation in the investment over the last month/quarter.

For both Fixed and appreciation option the provision of minimum redemption and minimum investment amount / units will not be applicable for transfer / switch transactions made under this facility for both switch out and switch in schemes.

The investor has to mention a "Start Date". The first switch will happen after one month/quarter from the start date. In case the investor purchases additional Units, the amount to be switched would be equal to the appreciation generated on such Units. In the absence of any appreciation as mentioned above, the switch under this option will not be made. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be allotted at the Applicable NAV of such Scheme/Plan/Option on the respective dates.

Switching

Unitholders of the Scheme have the option of switching in or out all or part of their investment in the Scheme/ Plan/ Option to any other Option of the Scheme or to any other Scheme / Plan/ Option of the Fund.

A switch has the effect of redemption from a Scheme/Plan/ Option and a purchase in the other Scheme/Plan/Option to which the switching has been done and all the terms and conditions pertaining to redemption and purchase of the Units of the respective Scheme shall apply to a switch, unless otherwise specified.

Switch is affected by redeeming Units from the Scheme/ Plan/Option and investing the net proceeds in the other Scheme/Plan/Option.

Accounts Statements

For normal transactions (other than SIP/STP) during ongoing sales and repurchase:

- The AMC shall issue to the investor whose application (other than SIP/STP) has been accepted, an account statement specifying the number of units allotted within 5 business days from the date of the transaction. The account statements will be sent to Unitholders in accordance with SEBI circular dated March 15, 2010. Account Statements to be issued in lieu of Unit Certificates under the Scheme are non-transferable. These Account Statements shall not be construed as proof of title and are only computer printed statements, indicating the details of transactions under the Scheme concerned during the relevant financial year and giving the closing balance of Units for the information of Unitholders. The Trustee may issue a Unit Certificate in lieu of Account Statement in respect of Units held, to those Unitholders who request for the same within six weeks of the receipt of request, at the cost and expense of the Unitholder or otherwise, as may be decided from time to time. Any discrepancy in the Account Statement / Unit Certificate should be brought to the notice of the Fund/AMC immediately. Contents of the Account Statement / Unit Certificate will be deemed to be correct if no error is reported within 30 days from the date of Account Statement / Unit Certificate. Further, the Trustee also reserves the right to issue, on an ongoing basis, in lieu of Account Statements, Transaction Confirmation Slips, therein indicating the price and the Units debited or credited to the Account of the Investor/Unitholder, along with the closing balance of his Account. Under this system, a periodical statement of holdings of the Investor in the relevant Scheme of KMMF will be given.
- For those unitholders who have provided an e-mail address, the AMC will send the account statement by e-mail.
- The unitholder may request for a physical account statement by writing/calling the AMC/ISC/R&T. The unit holder can write to any of the AMC office or call the call centre (Toll Free Number) or visit in person any of the ISC of the AMC / RTA for physical account statement. AMC / RTA would do the basic verification of identity of the unitholder and issue / mail the account statement as per the unit holder's request.

For SIP / STP transactions;

- Account Statement for SIP and STP will be despatched once every quarter ending March, June, September and December within 10 business days of the end of the respective quarter.
- A soft copy of the Account Statement shall be mailed to the investors under SIP/STP to their e-mail address on a monthly basis, if so mandated.
- However, the first Account Statement under SIP/STP shall be issued within 10 business days of the initial investment/transfer.
- In case of specific request received from investors, Mutual Funds shall provide the account statement (SIP/STP) to the investors within 5 business days from the receipt of such request without any charges.

Annual Account Statement:

- The Mutual Funds shall provide the Account Statement to the Unitholders who have not transacted during the last six months prior to the date of generation of account statements. The Account Statement shall reflect the latest closing balance and value of the Units prior to the date of generation of the account statement.
- The account statements in such cases may be generated and issued along with the Portfolio Statement or Annual Report of the Scheme.

Alternately, soft copy of the account statements shall be mailed to the investors' e-mail address, instead of physical statement.

Dividend

The dividend warrants shall be dispatched to the unitholders within 30 days of the date of declaration of the dividend.

Dividend may also be paid to the Unitholder in any other manner viz., through ECS, Direct Credit or NEFT in to Bank account, RTGS facility offered RBI or through Banker's cheque, etc as the AMC may decide, from time to time for the smooth and efficient functioning of the Scheme.

<p>Choice of Option</p>	<p>The Scheme has two options namely Growth Option and Dividend Option.</p> <p>The investors should indicate option for which the subscription is made clearly in the application form. In case of valid application received without any choice of option the following shall be the applicability of default option:</p> <table border="1" data-bbox="817 344 1466 499"> <thead> <tr> <th>Option</th> <th>Default</th> </tr> </thead> <tbody> <tr> <td>Growth/ Dividend</td> <td>Growth</td> </tr> <tr> <td>Weekly/Monthly/Quarterly/ Annual dividend option</td> <td>Monthly</td> </tr> <tr> <td>Reinvestment/ Payout Facility</td> <td>Reinvestment Facility</td> </tr> </tbody> </table>	Option	Default	Growth/ Dividend	Growth	Weekly/Monthly/Quarterly/ Annual dividend option	Monthly	Reinvestment/ Payout Facility	Reinvestment Facility
Option	Default								
Growth/ Dividend	Growth								
Weekly/Monthly/Quarterly/ Annual dividend option	Monthly								
Reinvestment/ Payout Facility	Reinvestment Facility								
<p>Redemption</p>	<p>The redemption or repurchase proceeds shall be dispatched to the unitholders within 10 working days from the date of redemption or repurchase.</p> <p>Redemption proceeds will be paid by cheques, marked "Account Payee only" and drawn in the name of the sole holder/first-named holder (as determine by the records of the Registrar). The Bank Name and No., as specified in the Registrar's records, will be mentioned in the cheque, which will be payable at the city of the bank branch of the Unitholder. If the Unitholder resides in any other city, he will be paid by a Demand Draft payable at the city of his bank branch.</p> <p>Redemption cheques will generally be sent to the Unitholder's address, (or, if there is more than one joint holder, the address of the first-named holder) as per the Registrar's records, by courier.</p> <p>Redemption proceeds may also be paid to the Unitholder in any other manner viz., through ECS, Direct Credit or NEFT in to Bank account, RTGS facility offered RBI or through Banker's cheque, etc as the AMC may decide, from time to time for the smooth and efficient functioning of the Scheme.</p>								
<p>Delay in payment of redemption / repurchase proceeds</p>	<p>The Asset Management Company shall be liable to pay interest to the unitholders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).</p>								
<p>Bank A/c Details</p>	<p>As per the directives issued by SEBI it is mandatory for an investor to declare his/her bank account number. To safeguard the interest of Unitholders from loss or theft of their refund orders/redemption cheques, investors are requested to provide their bank details in the Application Form.</p> <p>In case an existing Unitholder is submitting a request for Change in his Bank Details, he needs to submit a copy of cancelled cheque leaf of the new bank account or Bank statement of the new bank account attested by his banker with seal & signature of banker or letter from the Banker of the investor. In absence of the same, the request for Change in Bank Mandate is liable to be rejected.</p>								
<p>The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.</p>	<p>Not applicable</p>								
<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>Units held by way of an Account Statement cannot be transferred. However, units which are held in demat form shall be freely transferable under the depository system.</p>

C. Computation of NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The Fund shall value its investments according to the valuation norms, as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI/AMFI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current assets including Accrued Income} - \text{Current Liabilities and provisions including accrued expenses}}{\text{No. Of Units outstanding under the Scheme/Option.}}$$

NAV for the Scheme and the repurchase prices of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto four decimals

Computation of NAV will be done after taking into account dividends declared, if any, and the distribution tax thereon, if applicable. The income earned and the profits realized in respect of the Units remain invested and are reflected in the NAV of the Units.

V. FEES AND EXPENSES

This section outlines the expenses that will be charged to the scheme.

A. New Fund Offer (NFO) expenses

This is an ongoing scheme on the date of updating this document.

B. Annual scheme recurring expenses

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below.

The AMC has estimated that the following percentage of the weekly average net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund.

Annual Recurring Expenses

Description	(% per annum of daily average net assets)
Investment Management and Advisory Services Fees payable to AMC	1.00
Trustee Fees	0.03
Service Tax on Management & Trustee Fees	0.12
Custodian Fees	0.05
Marketing and Selling Expense	0.75
Registrar and Transfer Agent Fees	0.10
Other Operational Expenses attributable to the scheme	0.20
Total Annual Recurring Expenses (Estimated)	2.25

These estimates are made in good faith by the Investment Manager and are subject to change, both inter se and as an increase or decrease in the estimated total annual recurring expenses. Though the Investment Manager will make efforts to keep the recurring expenses to the minimum, actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Fund, however the expenses charged will not exceed the statutory limit prescribed by the Regulations.

The above estimates are based on an amount of Rs. 100 crores for the Scheme and will change to the extent assets are lower or higher.

The recurring expenses of the Scheme (including investment and advisory fees) will be subject to the following maximum limits (as a percentage of Weekly Average Net Assets) as per Regulation 52(6).

Expenses over and above the permitted limit under the applicable Regulations will be borne by the AMC.

Weekly Average Net Assets (Rs.)	
First 100 crores	2.25%
Next 300 crores	2.00%
Next 300 crores	1.75%
Balance Assets	1.50%

The AMC may charge the Scheme with investment and advisory fees subject to the currently applicable maximum limits (as a percentage of Weekly Average Net Assets of the Scheme) as per Regulation 52(2).

Weekly Average Net Assets outstanding in each accounting year (Rs.)	Fees chargeable
First 100 crores	1.25%
On Balance Assets	1.00%

C. Load structure

Load is an amount which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of www.mutualfund.kotak.com or your distributor.

Entry Load: NIL

In terms of SEBI Circular No. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009, no entry load will be charged on purchase / additional purchase / switch-in. The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

Exit Load:

- 2% if redeemed/switch- out within 1 year from date of allotment.
- Nil if redeemed/switch-out after 1 year from the date of allotment.

However, load collected in excess of 1% (which is permissible to be charged under SEBI regulations) shall be credited back to the scheme.

Bonus units and units issued on reinvestment of dividends shall not be subject to entry and exit load.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

Of the exit load or CDSC, a maximum of 1% of the redemption proceeds shall be maintained in a separate account which can be utilized towards payment of commissions to the distributors and towards meeting the sales and marketing expenses. Any balance in excess shall be credited to the scheme immediately.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.
