affected inter-alia, by government policy, volatility and liquidity in the money markets.

- As per SEBI Circular No. SEBI/IMD/CIR No.10/22701/03 dated December 12, 2003, the Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s). #### **Note on some of the Risk Factors**

##### **KOTAK FLEXI FOF - Series I**

- a. The Scheme may invest predominantly in diversified equity schemes/plans of Mutual Fund registered with SEBI. Hence the Scheme's performance may depend upon the performance of the underlying equity schemes. Any change in the investment policies or the fundamental attributes of the underlying schemes could affect the performance of the Scheme.
- b. Investments in underlying equity schemes will have all the risks associated with the underlying equity schemes including performance of underlying stocks, derivative investments, off shore investments, security lending etc.
- c. Investments in underlying schemes, which invest predominantly in money market or floating rate instruments, will have all the risks associated with such underlying schemes including changes in credit rating, trading volumes, settlement periods and transfer procedures; Price/Interest-Rate Risk and Credit Risk, volatility and liquidity in the money markets, pressure on the exchange rate of the rupee, Basis Risk, Spread Risk and Reinvestment Risk, off shore investments, derivative investments, security lending, etc.
- d. The investors of the Scheme will bear dual recurring expenses and possibly dual loads, those of the Scheme and those of the underlying Schemes. Hence the investor under the Scheme may receive lower pre-tax returns than what they could have received if they had invested directly in the underlying Schemes in the same proportions.

- e. The Portfolio disclosure of the Scheme will be limited to providing the particulars of the underlying schemes where the Scheme has invested and will not include the investments made by the underlying Schemes.
- f. The dynamic asset allocation may result in higher transaction costs.
- g. The Scheme is a close-ended scheme and the investors can redeem the units held in the scheme only during the last working day of every calendar month after the date of allotment of units, at prices related to Applicable NAV. However, subject to Regulations, the trustee reserves the right to re-issue the units repurchased at applicable NAV during liquidity window, to the existing unitholders, as it may deem necessary.

The Advisor may charge fees in accordance with the terms of the agreement entered into with it, which shall be borne by the AMC. The AMC has the right to designate an additional Agency for obtaining the recommended list. The AMC may also change the Advisor, if it deems fit.

The Research Methodology to be adopted by the Advisor for providing the recommended list shall be reviewed by the board of Directors of AMC and Trustees. The Boards of AMC and Trustees shall also review any change in the research methodology.

Kotak Securities will identify a universe of diversified equity schemes. This list will consist of schemes whose average AUMs are higher than a pre defined limit. These schemes will be analysed for making a recommended list.

Broadly, the following two parameters will be used to determine the universe of diversified equity schemes and analyse them.

**a) Investment Style:**

Broadly, any equity scheme can be classified, as either diversified or concentrated (eg., theme based, sector scheme etc.).

The diversified equity scheme is defined as a scheme, which invests or can invest (as per the Offer Document) across sectors. The Scheme proposes to invest its equity allocation in only diversified equity schemes.

**b) Performance Analysis:**

This parameter is used for analysing such diversified equity schemes.

Performance Analysis of a scheme can be done in many ways. One way is comparing returns of schemes across different time frames. Another method would be to analyse the degree of risks taken by different schemes to produce returns. This is essentially a return risk analysis.

The “Risk Return Analysis” method has been adopted in regards to this scheme.

Returns of a scheme are computed for a fixed time period. Say, weekly returns are computed over a one-year period. All of these returns are then compared against a benchmark. In our case, the benchmark is usually the market expectation of returns from equity investments arrived at by polling clients. Out performance or under performance of these returns over a benchmark and the frequency of this out / under performance is calculated. This exercise is carried out for all the schemes in contention.

Risk is computed based on the degree of underperformance of a scheme to a benchmark and frequency of all its under performance compared to the benchmark.

This return to risk ratio gives the excess returns potential of a particular scheme vis-à-vis a benchmark and can be used as a measure of performance consistency. This analysis is carried out for all schemes in contention.

The Advisor will recommend the schemes and allocate investments across categories of schemes, based on its outlook

On the underlying portfolio of such schemes. Advisor's recommendations will also be guided by the service standards, Load structure, overall corpus size etc.

The Scheme may invest in liquid/ short term/ floating rate schemes / plans of the Mutual Fund, whose equity scheme is recommended based on the above Methodology.

Pending deployment of the Funds of the Scheme in accordance with the Investment Objective, the Scheme may invest in short term deposits of Scheduled Commercial Banks, subject to the regulations.

**5. The Risk Profile and Investment Pattern**

The asset allocation under the Scheme, under normal circumstances, will be as follows:

Investments Profile	Indicative Allocation*	Risk
Diversified Equity Schemes / Plans	0% to 90%	Medium to High
Liquid/ Short Term / Floating Rate Schemes / Plans	10% to 100%	Low
Money Market Securities**	0% to 10%	Low

\* The asset allocation between equity and liquid / short term / floating rate schemes / plans will be guided by trends in equity markets. If the equity market goes up, the scheme will normally increase its portfolio allocation to equity schemes. However, keeping in mind the need to minimise risk on the investment and outstanding maturity of the scheme, there might be times when the scheme may not increase investment in equity schemes in an equity market, which is moving up. If the equity market goes down, the scheme will normally decrease its portfolio allocation to equity schemes.

\*\* The Fund Manager will invest in Money Market Securities, as per the prevailing Regulation from time to time, only for the purpose of liquidity requirements.

**B. POLICIES AND REGULATIONS APPLICABLE TO THE SCHEME**

Under the Regulations, the AMC is not permitted to charge any investment management and advisory services fee on its own investment in the Scheme.

## 9. Investment Limitation and Restrictions

Apart from the above investment restrictions, the Fund follows certain internal norms, as approved by the Board of AMC/Trustee and in accordance with the Mutual Fund Regulations, which are subject to change from time to time. Presently, the following are some of the internal restrictions followed:

1. Kotak Flexi FOF – Series I will invest in a recommended scheme only if such a scheme fulfils the following criteria:
  - The recommended scheme is floated by a Mutual Fund, which has as on the immediate preceding month end, total 'assets under management' (AUM) of more than Rs. 5000 crs. and equity AUM of more than Rs. 500 crs.

4. The Scheme will not invest in any Sector Specific Equity Scheme(s).

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supercede/override the provisions of the Trust Deed.

## 10. Computation of Net Asset Value

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

### a) Valuation Norms

The Fund shall value its investments according to the valuation norms, as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI/AMFI from time to time.

The investments in the underlying schemes shall be valued based on the Net Asset Value of the respective schemes on the valuation date.

Investments in call money, bills purchased under rediscounting scheme and short term deposits with banks shall be valued at cost plus accrual. Money market instruments other than call money, bills purchased under rediscounting scheme and short term deposits with banks, shall be valued at the last traded price on the National Stock Exchange (NSE), and where not traded, shall be valued at the last traded price plus amortization on the basis of the last traded price.

Traded and non- traded Government Securities shall be valued as per the prices for Government Securities released by an agency suggested by AMFI for the sake of uniformity in calculation of NAVs across all mutual funds. Accordingly, traded and non-traded government securities are valued at prices obtained from The Credit Rating Information Services of India Limited

Where instruments have been bought on 'repo' basis, the instrument shall be valued at the resale price after deduction of applicable interest up to the date of resale. Where an instrument has been sold on a 'repo' basis, adjustment shall be made for the difference between the repurchase price (after deduction of applicable interest up to the date of repurchase) and the value of the instrument. If the repurchase price exceeds the value, the depreciation shall be provided for and if the repurchase price is lower than the value, credit shall be taken for the appreciation.

**The valuation guidelines as outlined above are as per the Regulations prevailing at present and are subject to change from time to time, in conformity with changes made by SEBI.**

**All other guidelines, not covered above and as specified in the Mutual Fund Regulations, as well as any additions/modifications thereto as may be specified by SEBI from time to time, shall be adhered to for the purpose of valuation**

### b) Accrual of expenses and incomes

All expenses and incomes accrued up to the valuation date shall be considered for the computation of net asset value. For this purpose, while major expenses like management fees and other periodic expenses shall be accrued on a day to day basis, other minor expenses and income need not be so accrued, provided the non-accrual does not affect the NAV calculations by more than 1%.

### c) Recording of Securities and Units in the books

Any change in the portfolio of securities and in the number of Units held shall be recorded in the books not later than the first valuation date following the date of transaction. If

this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed up to a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%. In case the Net Asset Value is affected by more than 1% due to such non-recording of transactions, the investors or the Scheme, as the case may be shall be paid the difference in the manner provided in the Regulations.

### d) Calculation of NAV

NAV of Units under the Scheme or Options thereunder can be calculated as shown below:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current assets including Accrued Income} - \text{Current Liabilities and provisions including accrued expenses}}{\text{No. of Units outstanding under the Scheme / Option}}$$

The NAV and the sale and repurchase prices of the Units will be calculated and announced at the close of each Working Day. Computation of NAV will be done after taking into account dividends declared, if any, and the distribution tax thereon, if applicable. Therefore, once dividends are declared under the Dividend Option, the NAV of the Units under the Dividend Option would always remain lower than the NAV of the Units issued under the Growth Option.

The income earned and the profits realized in respect of the Units issued under the Growth Option remain invested and are reflected in the NAV of the Units.

## 11. Accounting Policies

In accordance with the Mutual Fund Regulations, the Fund follows the accounting policies and standards stated below:

1. For each Scheme, the AMC shall keep and maintain proper books of accounts, records and documents, for the Scheme so as to explain its transactions and to disclose at any point of time the financial position of the Scheme and in particular give a true and fair view of the state of affairs of the Fund.
2. For the purposes of the financial statements, the Mutual Fund shall mark all investments to market and carry investments in the balance sheet at market value. However, since the unrealised gain arising out of appreciation on investments cannot be distributed, provision shall be made for exclusion of this item when arriving at distributable income.
3. For investments, which are not quoted on a stock exchange, dividend income shall be recognised on the date of declaration.
4. In respect of all interest-bearing investments, income shall be accrued on a day-to-day basis as it is earned. Therefore, when such investments are purchased, interest paid for the period from the last interest due date upto the date of purchase shall not be treated as a cost of purchase but shall be debited to Interest Recoverable Account. Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale shall not be treated as an addition to sale value but shall be credited to Interest Recoverable Account.

5. In determining the holding cost of investments and the gains or loss on sale of investments, the "average cost" method shall be followed.
  6. Transactions for purchase or sale of investments shall be recognised as of the trade date and not as of the settlement date, so that the effect of all investments traded during a financial year is recorded and reflected in the financial statements for that year. Where investment transactions take place outside the stock market, for example, acquisitions through private placement or purchases or sales through private treaty, the transaction shall be recorded, in the event of a purchase, as of the date on which the Scheme obtains an enforceable obligation to pay the price or, in the event of a sale, when the Scheme obtains an enforceable right to collect the proceeds of sale or an enforceable obligation to deliver the instruments sold.
  7. Where income receivable on investments has been accrued and has not been received for the period specified in the guidelines issued by SEBI, provision shall be made by debiting to the revenue account the income so accrued in the manner specified by SEBI in this behalf.
  8. When Units are sold, the difference between the sale price and the face value of the Unit, if positive, shall be credited to reserves and if negative, debited to reserves, the face value being credited to Capital Account. Similarly, when Units are repurchased, the difference between the purchase price and the face value of the Unit, if positive shall be debited to reserves and, if negative, shall be credited to reserves, the face value being debited to the capital account. Accordingly, upon issue and redemption of units, the net premium or discount to the face value of units is adjusted against the unit premium reserve of the Scheme / Options, after an appropriate portion of the issue proceeds and redemption payout is credited or debited respectively to the income equalisation reserve. The unit premium reserve is available for dividend distribution except to the extent it is represented by unrealised net appreciation in value of investments.
  9. When Units are sold an appropriate part of the sale proceeds shall be credited to an Equalisation Account and when Units are repurchased an appropriate amount debited to the Equalisation Account. The net balance on this account shall be credited or debited to the Revenue Account. The balance on the Equalisation Account debited or credited to the Revenue Account shall not decrease or increase the net income of the Fund but is only an adjustment to the distributable surplus. It shall, therefore, be reflected in the Revenue Account only after the net income of the Fund is determined. Accordingly, Income equalisation reserve is maintained by crediting (or debiting) the income equalisation reserve account in respect of purchase of units (or redemption of units) by an appropriate amount, which represents the distributable income at the time of purchase (or redemption). The balance in the income equalisation reserve account is transferred to the revenue account at the end of the year.
  10. The cost of investments acquired or purchased shall include brokerage, stamp duty, applicable taxes and any charge customarily included in the broker's bought note.
- In respect of privately placed debt instruments any front-end discount offered shall be reduced from the cost of the investment.
11. For the Scheme, Initial Issue Expenses comprise Brokerage Agents' commission, advertising and marketing costs, registrar expenses, printing and dispatch costs, etc.. In case the Initial Issue Expenses are borne by the Scheme, the extent of expenses not met out of the entry load, if any, collected during the New Fund Offer may be amortised over a period not exceeding three years (or one year for certain identified initial issue expenses as approved by the Trustees) for open ended schemes of the Fund and over the tenure of the scheme for close ended schemes.
  12. Load Charges: For the Scheme:
    - a) Load collected, if any, during the NFO shall be utilised to meet the Broker/Agents Commission incurred during the New Fund Offer.
    - b) Load collected, if any, during the continuous offer of the Scheme shall be retained under a separate account in the Scheme and shall be used to meet the selling and distribution expenses of the Scheme.
  13. Following the issue of the Guidance Note on 'Accounting for Investments in the Financial Statements of Mutual Funds' by the Institute of Chartered Accountants of India (pursuant to the Eleventh Schedule of the SEBI Regulations) net unrealised appreciation/ depreciation in value of investments is determined separately for each category of investments. Further, the change in net unrealised appreciation / depreciation, if any, between the two Balance Sheet dates/ date of determination is recognised in the revenue account. Unrealised appreciation is reduced from the distributable income at the time of income distribution. At the end of the financial year the balance in revenue account including net change in unrealised appreciation / depreciation in value of investments is transferred to the revenue reserve.
- The identification and provisioning of Non Performing Assets (Debt Securities) shall be in accordance with circular no. MFD/CIR/8/92/2000 dated September 18, 2000 and modifications thereto vide circular no. MFD/CIR/14/088/2001 dated March 28, 2001, issued by SEBI. The circular dated September 18, 2000 also contains provisions for the treatment of income accrued on Non Performing Assets (NPA), treatment of assets on reclassification as performing assets, receipt of past dues, disclosures of NPAs on a half yearly basis along with the half yearly portfolio of the relevant Scheme, etc.
- The accounting policies and standards as outlined above are in accordance with the present Mutual Fund Regulations and are subject to change in accordance with changes in the Mutual Fund Regulations.**
- All other policies and standards as specified in the Mutual Fund Regulations, as well as any additions / modifications thereto as may be specified by SEBI from time to time shall be adhered to while preparing the books of accounts and financial statements of the Fund.**

**The Trustee may, at its discretion, require the Fund to follow more conservative accounting norms than as required by the Regulations in respect of non-performing assets or assets in default.**

## **12. Recording of Investment Decisions**

With regard to investments in underlying schemes, individual scheme-wise reasons will be maintained in respect of daily transactions. Such reasons will be recorded at the time of placing orders. As per Mutual Fund Regulations, a detailed research report must be prepared for each investment decision taken for the first time. However since investments in underlying equity schemes other than KMMF schemes will be based on the recommended list provided periodically by the Advisor, the recommended list shall be construed as the research report. The recommended list will be accompanied by a report stating the methodology for choosing underlying schemes. The broad parameters which shall be considered by the Advisor while generating the recommended list shall be approved by the Boards of AMC and Trustees.

The decision of making investments in Inter bank call and/or reverse repo and/or short-term fixed deposits and/or Schemes, which invest predominantly in the money market, or floating rate securities will be exercised by the Fund Manager in order to meet the liquidity requirements. The role of Mr. Sandesh Kirkire, CEO of the AMC is to ensure that due diligence is exercised while making investment decisions, that processes and procedures are followed, and review is undertaken vis-à-vis norms, policies, mechanisms, etc. laid down by the Board of the AMC. Performance of the Scheme will periodically be tabled before the Boards of the AMC and the Trustee respectively. Performance of the Scheme vis-à-vis benchmark indices would be monitored by the Boards of the Trustee and the AMC periodically. Further, the Boards of the Trustee and the AMC will also review the performance of the Scheme in the light of performance of similar fund of funds schemes when launched, as published from time to time by independent research agencies and financial newspapers and journals.

An Account Statement, stating the number of Units allotted, will be sent to each Unitholder within 30 (Thirty) days from the date of the closure of the New Fund Offer. The Account Statement will be non-transferable.

Non-transferable Unit Certificates will be sent, if an applicant so desires, within 30 (Thirty) days after the receipt of a request for the certificate.

Any discrepancy in the Account Statement / Unit Certificate should be brought to the notice of the Fund/AMC immediately. Contents of the Account Statement / Unit Certificate will be deemed to be correct if no error is reported within 30 (Thirty) days from the date of Account Statement / Unit Certificate.

Units held, either in the form of Account Statements or Unit Certificates, are non-transferable. The Trustee reserves the right to make the Units transferable at a later date subject to the Regulations issued from time to time.

All Units rank pari passu amongst Units within the Scheme / Option as to assets and earnings.

## 8. Refund

Refund of subscription money to applicants in the case of minimum subscription amount not being raised or applications rejected for any other reason whatsoever, will be made within 30 (Thirty) days from the end of the New Fund Offer. No interest will be payable on any subscription money so refunded within the said 30 (Thirty) days. If the Mutual Fund refunds the amount after the said 30 (Thirty) days, interest at the rate of 15% p.a. will be paid to the applicant and borne by the AMC for the period from the day following the date of expiry of the said 30 (Thirty) days until the actual date of the refund. Refund orders will be marked "**Account Payee only**" and drawn in the name of the applicant in the case of a sole applicant and in the name of the first applicant in all other cases. In both cases, the bank name and bank account number, as specified in the application, will be mentioned in the refund order. The bank and/or collection charges, if any, will be borne by the applicant.

All refund cheques will be mailed by Registered Post or as per the Regulations.

## C. REDEMPTION OF UNITS

The Units can be redeemed, during the liquidity window, at the Redemption Price (mentioned elsewhere in this Offer Document).

Units purchased by cheque may not be redeemed until after realisation of the cheque.

A Unitholder has the option to request for redemption either in amount in Rupees or in number of Units. If the redemption request indicates both amount in Rupees and number of Units, the latter will be considered as being requested. Where a Rupee amount is specified or deemed to be specified for redemption, the number of Units redeemed will be computed as the amount redeemed divided by the Redemption Price. Alternatively, a Unitholder can request closure of his account, in which case, the entire Unit balance lying to the credit of his account will be redeemed.

The Fund reserves the right to redeem the entire amount lying to the credit of the Unitholder's account in that Scheme/ Option if the Redemption request amount exceeds the balance lying to the credit of the Unitholder's said account.

The number of Units redeemed is subtracted from the Unitholder's account and a statement to this effect is issued to the Unitholder.

If an investor has purchased Units on more than one Working Day, the Units purchased prior in time (i.e. those Units which have been held for the longest period of time), will be deemed to have been redeemed first, i.e. on a First In First Out Basis except when the Unitholder specifically requests redemption of Units purchased on specific date(s).

### 1. Redemption Price

The Redemption Price per unit is calculated as follows.

Redemption Price = Applicable NAV\$ x (1 - Exit Load)\*  
– Proportionate Unamortised Initial Issue expenses (till the redemption date)

Eg: If Applicable NAV = Rs. 10/-;

Exit Load = 1%;  
Proportionate Unamortised

Initial Issue Expenses = Rs. 0.150, then

Redemption Price =  $10 \times (1 - 1\%) - 0.150 = \text{Rs. } 9.75/-$

\$ For Applicable NAV, please refer paragraph 'Applicable NAV' mentioned elsewhere in this Offer Document.

\* For Exit Load, please refer paragraph 'Load Structure of the Scheme' mentioned elsewhere in this Offer Document.

The Redemption Price for every Working Day will be published atleast in two daily newspapers.

The Redemption Price, however, will not be lower than 95% of the Applicable NAV minus the proportionate unamortized Initial Issue Expenses till the redemption date (during the liquidity window), if any.

### 2. How to Redeem?

Pre-printed redemption request form will be sent to the Unitholders along with the Account Statement. These forms will also be available at any of the Investor Service Centres and at the office of the Registrar at Chennai.

The fully completed form, can be submitted at any of the Investor Service Centres listed in this Offer Document or can be sent to the office of the Registrar at Chennai, in person or by post.

Where the Unitholder has opted to transact through the Internet, he may redeem his Units through the website of the

Registrar, i.e. www.camsonline.com and/or through any other website, through which redemption may be facilitated in future.

The Unitholder may either request mailing of the redemption proceeds to his/her address or to be retained at the ISC for collection by him/her. If the Unitholder opts for the "D-Kredit" facility, he can receive the amount by a direct credit to his bank account.

### 3. Maturity of the Scheme

All units of the Scheme will compulsorily and without any further act by the Unitholder(s) be redeemed on the expiry of three years from the date of allotment, and the Units of the Scheme will be redeemed at the Applicable NAV on that date. If the maturity falls on a holiday, the maturity of the Scheme will be the immediately following working day.

For eg: If the date of allotment of units under the Scheme is done on January 1, 2006, the date of maturity of the Scheme will be December 31, 2008. In case December 31, 2008, is a holiday, the date of maturity will be the immediately next working day.

### 4. Payment of Proceeds

Redemption proceeds will be paid by cheques, marked "Account Payee only" and drawn in the name of the sole holder/first-named holder (as determined by the records of the Registrar). The Bank Name and No, as specified in the Registrar's records, will be mentioned in the cheque, which will be payable at par at all the cities designated by the Fund from time to time. **If the Unitholder resides in any other city, he will be paid by a Demand Draft payable at the city of his residence.**

Redemption cheques will generally be sent to the Unitholder's address, (or, if there is more than one joint holder, the address of the first-named holder) as per the Registrar's records, by courier within 4 Working Days from the day when the valid request is accepted at the Official Acceptance Point, but in any case, not later than 10 Working Days from the date of redemption. (Please refer to paragraph 'Applicable NAV' as mentioned elsewhere in this Offer Document for cut-off times for receiving the redemption request).

Redemption proceeds may also be paid to the Unitholder in any other manner that the Unitholder may request or the Trustee may, from time to time, decide, for the smooth and efficient functioning of the Scheme.

### 5. Redemption by NRIs/FLIs

Credit balances in the account of NRIs may be redeemed by such investor in accordance with the procedure described above in paragraph 2. Such redemption proceeds (after payment of taxes) may be,

- credited at the NRI investor's option, to his NRO account, where the payment for the purchase of the Units sold was made out of funds held in NRO account, or
- remitted abroad or at the NRI investor's option, credited to his NRE/FCNR/NRO account, where the Units were purchased on repatriation basis and the payment for purchase of the Units sold was made by inward remittance through normal banking channels or out of the funds held in NRE/FCNR account.

In case of an FII, the designated branch of an authorised dealer may allow remittance of net redemption proceeds (after payment of taxes) or the same may be credited to its Non Resident Rupee Account or the Foreign Currency Account.

### 6. Effect of Redemptions

#### a) On the Fund

After every redemption, the Unit capital and Reserves of the Scheme stand reduced by an amount equivalent to the product of the number of Units redeemed and the Applicable NAV as on the date of redemption, duly adjusted for proportionate unamortized balance of initial issue expenses till the date of redemption. Units once repurchased can be re-issued during the liquidity window at applicable NAV to existing unit holders of the scheme, as it may deem necessary

#### b) On the Unitholder's account

The balances in the Unitholder's account stand reduced by the number of Units redeemed. The following table illustrates a typical redemption case, assuming the initial issue expenses of 2% of the subscribed amount which is amortised till the maturity of the scheme, i.e., for a period of three years from the allotment date.

Particulars		Amount
Unit initial issue Expenses	A	Rs. 0.20 (Rs. 10.000 X 2%)
No. of days, in which the initial issue expenses is to be amortised	B	1096
Daily Unit initial issue expenses amortisation	C = A / B	Rs. 0.20 /1096 days
Assuming, the investments are redeemed by the investor (during the liquidity window) on 274th day from the allotment date	D	274 days
The initial issue expenses amortised till the redemption date	E=A x D/B	Rs. 0.050 (Rs. 0.20 x 274 / 1096)
Unamortised Unit initial issue expenses, which will be recovered from the investor redeeming the units	F = A-E	Rs. 0.150 (0.20 - 0.050)
Thus, the total Unit initial issue expenses borne by : - Investor who redeems the units during the liquidity window	G = E + F	Rs. 0.20 (0.050 + 0.150) Amortised + Unamortised
- Investor who gets the proceeds at the time of maturity of the scheme	H = A	Rs. 0.20 (amortised)

Thus, it is clear from the above table, that the Unit initial issue expenses which is amortised are being completely borne by the respective investors only.

<b>Calculation of Redeemed Units explained:</b>		<b>If Exit Load of 1% is chargeable</b>
Unit Balance before Redemption	A	2,305.235
NAV on date of redemption	B	Rs. 10.412
Exit Load Chargeable	C	Rs. 0.104 (10.412 x 1%)
Redemption Price (Net of Load)	D = B-C	Rs. 10.308 (10.412-0.104)
Proportionate Unamortized Initial per unit Issue Expenses (at the time of redemption offered during liquidity window)	E	Rs. 345.79 or Rs. 0.150 per unit (Rs. 345.79/2305.235 units)
Unit Net Redemption Price (Net of Load & proportionate unamortised initial issue expenses)	F = D-E	Rs. 10.158 Rs. (10.412-0.104-0.150)
If Redemption request is in Rs.	G	Rs. 3,500
No. of units Redeemed	H = G / F	344.5560 units Rs. (3500 /10.158)
No. of Units left	I= A-H	1960.679 units (2,305.235 -344.556)
If Redemption request is in Units	J	350 Units
Net redemption Amount (after recovery of proportionate unamortized initial issue expenses)	K = J x F	Rs. 3,555.30 (350 units x Rs. 10.158)
No. of Units left	L = A-J	1955.235 units (2,305.235-350.000)

**Note:** Situation, load and NAV figures are hypothetical and assumed for the sole purpose of the illustration.

## 6. Right to Limit Redemption

The Board of Directors of the Trustee and the AMC may, in the general interest of the Unitholders of the Scheme offered under this Offer Document and keeping in view the unforeseen circumstances/unusual market conditions, limit the total number of Units which may be redeemed during the Liquidity Window to 5% of the total number of Units then issued and outstanding under the Scheme or to such other percentage as the said Boards may determine. In such a case, the approval of both the Boards, giving details of circumstances and justification for the proposed action shall be informed to SEBI in advance.

Any Units, which, by virtue of these limitations, are not redeemed on a particular day, are carried forward for redemption to the next day for which NAV is declared, in the order in which the requests for redemption were received. Redemptions so carried forward are priced on the basis of the Redemption Price of the day on which redemption is made. Under such circumstances, to the extent multiple redemption requests are received at the same time on a single Working Day, redemptions will be made on pro-rata basis, based on the size of each redemption request, the balance amount being carried forward for redemption to the next day(s) for which NAV is declared.

## 7. Suspension of Redemption of Units

The redemption of Units may be suspended temporarily or indefinitely when any of the following conditions exist:

1. There is a natural calamity, civil strife, complete breakdown of law and order, war, Act of God or force majeure; and or
2. There is suspension of redemption of units in any of the underlying scheme.
3. SEBI, by order, so directs.

In case of suspension of redemption, the approval of the Boards of Directors of the Trustee and the AMC, giving details of circumstances and justification for the proposed action shall be informed to SEBI in advance.

## 8. Unclaimed Redemption and Dividend Amount

As per circular no. MFD/CIR/9/120/2000, dated November 24, 2000 issued by SEBI, the unclaimed redemption and dividend amounts shall be deployed by the Fund in call money market or money market instruments only. The investment management fee charged by the AMC for managing such unclaimed amounts shall not exceed 50 basis points. The circular also specifies that investors who claim these amounts during a period of three years from the due date shall be paid at the prevailing Net Asset Value. Thus, after a period of three years, this amount can be transferred to a pool account and the investors can claim the said amounts at the NAV prevailing at the end of the third year.

In terms of the circular, the onus is on the AMC to make a continuous effort to remind investors through letters to take their unclaimed amounts.

The information on amount unclaimed and number of such investors for each Scheme shall be disclosed in the annual report sent to the Unitholders.

The AMC will invest the unclaimed redemption/dividend amounts under the Scheme in bank fixed deposits. In case of a request from the investor claiming the unpaid redemption/dividend amounts due to him; the investor will be paid the same along with the interest on such investment. Also the investors will be reminded through periodic communications to claim their unclaimed amounts. The AMC may charge fees

for managing these unclaimed redemption/dividend amounts as permitted under the Regulations.

#### **9. Re-issue of Repurchased Units**

Unitholders will have the option to redeem the units during liquidity window, only during the last working day of every calendar month after the date of allotment of units, at prices related to Applicable NAV. Subject to Regulations, the trustee reserves the right to re-issue the units repurchased at applicable NAV during liquidity window, to the existing unitholders, as it may deem necessary.

## VI. LOADS AND RECURRING EXPENSES

### A. NEW FUND OFFER

#### Entry Load (During New Fund Offer) and Exit Load (During Liquidity Window) :

##### Entry Load (During New Fund Offer):

- For investments less than Rs. 10 crores – 2.25%
- For investments equal to or greater than Rs. 10 crores – NIL.

##### Exit Load (During Liquidity Window) : NIL

The Trustee reserves the right to change the load structure of the Scheme or introduce contingent deferred sales charge (CDSC) on a prospective basis. Should the Trustee, on any date, decide to change the load structure or introduce/modify CDSC, it will be on a prospective basis and investments made by Unitholders prior to such date will continue to attract the loads/CDSC applicable prior to such change. Any change/introduction in the load structure/CDSC alongwith the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of the same.

Any Load or CDSC of the Scheme will be maintained in a separate account to meet the selling and distribution expenses of the Fund and any excess over such expenses will be credited to the Scheme, whenever felt appropriate by the AMC.

### B. FEES AND EXPENSES OF THE SCHEME

As per the provisions of the Regulations, as amended up to date, the following fees and expenses are applicable to the Scheme:

#### 1. Expenses of Initial Issue

In respect of the Scheme, Initial Issue Expenses not exceeding 4.25% may be incurred by the Fund as under:

- a. Expenses relating to Broker / Agent's commission incurred during the New Fund Offer (NFO) shall be met out of the Entry Load collected during the NFO. No part of these expenses met out of the entry load will be amortised.

- b. Initial Issue Expenses comprising of Marketing and Advertising, Printing and Mailing, Additional Brokerage / Commission, Registrar Expenses, Bank charges and Other Expenses, subject to a maximum of 2% of the amount collected (net of Entry load) by the Scheme, will be amortised over the tenure of the scheme. For the Scheme, the aforesaid initial issue expenses are estimated as under:

Expenses other than Broker/Agent's commission	Estimated % of Amount Collected
Marketing and Advertising	0.50
Printing and Mailing	0.20
Additional Broker/Agent's Commission	1.00
Registrar Expenses	0.15
Bank charges and Other Expenses	0.15
<b>Total</b>	<b>2.00</b>

These estimates are made in good faith by the AMC and the actual expenses may be different from these estimates, inter se.

Actual expenses incurred in respect of Initial Issue Expenses in excess of 4.25% as indicated above shall be borne by the AMC.

#### Illustration of Amount available to Scheme for Investment

Assumptions made for the purpose of the illustration:

- The impact has been explained for both categories of investors, i.e.
  - A. Investment of less than Rs. 10 crores and
  - B. Investment of equal to or greater than Rs. 10 crores
- The calculations are made for every Rs. 100 invested by A and B.
- The Entry Load amount collected is utilised for payment of Broker/Agent commission.

	A	B
Unitholders Investment (Rs.)	100	100
Purchase Price at which Units are allotted (Rs.)	10.225	10.000
No. of Units allotted	9.780	10.000
Load Amount utilised for payment of Broker/Agent comm. (Rs.)	$9.780 \times 10 \times 2.25\% = 2.2005$	0.00
Balance Amount (Rs.)	97.7995	100.00
Initial Issue Expenses (comprising of Marketing and Advertising, Printing and Mailing, Additional Brokerage / Commission, Registrar Expenses, Bank charges and Other Expenses)	$97.7995 \times 2\% = 1.9560$	$100 \times 2\% = 2.00$
Amount available to Scheme for investment	95.8435	98.000

The impact of initial issue expenses, which are to be amortised over a period of time, on the NAV is explained below.

### Illustration of Impact of Initial Issue Expenses on NAV :

Continuing the illustration further, if the total amount collected by the Scheme is Rs. 200 (as stated A and B above), further assumptions made for the purpose of the illustration:

- For illustrating the impact on NAV, no accruals, appreciation or depreciation on Investments has been assumed from the time of New Fund Offer till the date of computation of NAV.

- The impact of entry / exit load during the Continuous Offer has not been considered for calculation of Purchase/ Redemption Price on first date of NAV computation.
- All Initial Issue Expenses specified in the table above are amortised over a period of exactly three years (i.e tenure of the Scheme).
- Amortisation of Initial Issue Expenses starts from the date of computation of NAV, which could be earlier than the first day of declaration of NAV.

Total Amount available for Investment to the Scheme (Rs.)	193.8435
Total No. of Units allotted	19.78
Total Initial Issue Expenses amortised over 3 years (1096 days) (Rs.)	3.9560
Maximum period for amortization	3 years i.e. 1096 days
Per day amortisation of Initial Issue Expenses (Rs.)	$3.9560 \div 1096 = 0.0036$
Balance Initial Issue Expenses which will be included in Net Assets (Rs.)	$3.9560 - 0.0036 = 3.9524$
NAV on first date of computation (Rs.)	$(193.8435 + 3.9524) \div 19.78 = 9.9998$
Redemption Price (assuming that the liquidity window is available) after adjusting for the proportionate unamortised initial issue expenses on first date of NAV computation (Rs.)	Rs. 9.7998 (Rs. 9.9998 – 0.2000)

## 2. Expenses of Past Initial Issue

As per the Regulations, for each Scheme, the Initial Issue Expenses comprising Broker/Agent's commission, advertising, publicity, marketing, registrar expenses, etc. shall not exceed 6% of the amount collected under the Scheme. For no Scheme launched by the Fund did the initial issue expense exceed the said limit. In the case of Kotak Gilt Investment, Kotak Gilt Savings, Kotak Gilt Serial, Kotak Bond, Kotak Bond Serial, Kotak Bond Short Term, Kotak Liquid, Kotak Floater Short Term Scheme, all Plans under Kotak Mahindra Fixed Maturity Plans, Kotak FMP (8), Kotak Dynamic Income, Kotak 30, Kotak Floater Long Term Scheme, Kotak Flexi Debt Scheme, Kotak FMP Series VIII, Kotak FMP Series I, Kotak FMP Series II, Kotak FMP Series IV, Kotak Cash Plus, Kotak FMP Series XII, Kotak FMP Series XIV, Kotak FMP Series XV and Kotak FMP Series XVI the entire Initial Issue Expense was borne by the AMC. As such, for every Rs. 100 contributed by the investor, the entire Rs. 100 was available for investment. In the case of Kotak Balance, Kotak MNC and Kotak Tech, the Schemes were respectively charged initial issue expenses of 1.5% of the amount collected during the New Fund Offer and the expenses so charged to the said Schemes are being amortised over a period of 5 years, as required under Regulation 52(5) read with the Tenth Schedule. Amounts in excess of 1.5% of the amount collected were borne by the AMC and not charged to the said Schemes. Thus, for every Rs. 100 contributed by the investor, Rs. 98.50 was available to the Schemes for investment. In case of Kotak Income Plus, Initial Issue Expenses of upto 2% of the amount collected during the New Fund Offer Period was charged to the Scheme. Amount in excess of 2% were borne by the AMC. As such,

for every Rs.100 contributed by the investor, atleast Rs.98 was available to Kotak Income Plus for investment. In case of Global India Initial Issue Expenses of upto 2.83% was charged to the Scheme and thus for every Rs.100 contributed by the investor, atleast Rs.97.17 was available to the Scheme for investment. In case of Kotak Equity FOF Initial Issue Expenses of upto 3.75% was charged to the Scheme and thus for every Rs.100 contributed by the investor, atleast Rs.96.25 was available to the Scheme for investment. In case of Kotak Opportunities Initial Issue Expenses of upto 2.82% was charged to the Scheme and thus for every Rs.100 contributed by the investor, atleast Rs.97.18 was available to the Scheme for investment. Thus, for every Rs. 100 contributed by the investor, atleast Rs. 97.75 was available to the scheme for investment. In case of Kotak Contra Scheme, initial issue expenses of upto 3.42% were charged to the scheme. Thus, for every Rs. 100 contributed by the investor, atleast Rs. 96.58 was available to the scheme for investment. In case of Kotak Flexi Fund of Funds, initial issue expenses of upto 3.18% were charged to the scheme. Thus, for every Rs. 100 contributed by the investor, atleast Rs. 96.82 was available to the scheme for investment. In case of Kotak ELSS, initial issue expenses of upto 6% were borne by the Scheme. Thus, for every Rs. 100 contributed by the investor, atleast Rs. 94.00 was available to the scheme for investment.

\*\* The initial issue expenses borne by the schemes are being amortised as per the Regulations.

The Initial Issue Expenses of the schemes did not vary adversely from the estimated expenses of the respective schemes.

### 4. Recurring Expenses of the Scheme

As per SEBI Circular No. MFD/CIR No. 04/11488/2003 dated June 12, 2003, in case of Fund of Funds Scheme, the total expenses of the scheme including management fees shall not exceed 0.75% of the daily average net assets. These expenses are over and above the expenses charged by the respective Underlying schemes.

The estimate of the ongoing fees and expenses of operating the Scheme on an annual basis, expressed as a percentage of the amount of the Scheme's daily average net assets is given in the table below. The purpose of the tables is to assist the investor in understanding the various heads of costs and expenses that an investor in a Scheme will bear directly or indirectly.

<b>Recurring Expenses</b>	<b>Description (% per annum of daily average net assets)</b>
Investment Management and Advisory Services Fees payable to AMC	0.60
Trustee Fees	0.05
Custodian Fees	0.02
Marketing and Selling Expense (incl. Agents commission)	0.01
Registrar and Transfer Agent Fees	0.02
Other Operational Expenses attributable to the scheme (including service tax on management fee & trustee fee)	0.05
<b>Total Annual Recurring Expenses (Estimated)</b>	<b>0.75</b>

These estimates are made in good faith by the Investment Manager and are subject to change, both inter se and as an increase or decrease in the estimated total annual recurring expenses. Though the Investment Manager will make efforts to keep the recurring expenses to the minimum, actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Fund, however the expenses charged will not exceed the statutory limit prescribed by the Regulations.

The above estimates are based on an amount of Rs. 100 crores for the Scheme and will change to the extent assets are lower or higher.

The recurring expenses under the Scheme (including investment and advisory fees) will be subject to the following maximum limits (as a percentage of Weekly Average Net Assets of the Scheme), as per Regulation 52.

The total recurring expenses of the Scheme including the management fees shall not exceed 0.75% of the daily average net assets. Expenses over and above the permitted limit under the applicable Regulations will be borne by the AMC.

## VII. UNITHOLDERS' RIGHTS AND SERVICES

### A. UNITHOLDERS' RIGHTS

3. If the Fund declares a dividend under the Scheme, it is required to dispatch dividend warrants within 30 days from the date of declaration of the dividend.
4. The Fund is required to dispatch redemption cheques within 10 Working Days from the date of redemption. If the Fund fails to send the redemption cheques after the said 10 Working days, interest at the rate of 15% p.a. will be paid to the applicant and borne by the AMC for the period from the day following the date of expiry of the said 10 Working days until the actual date of the refund.

**THE FOLLOWING INFORMATION IS PROVIDED FOR GENERAL INFORMATION PURPOSES ONLY. IN VIEW OF THE INDIVIDUAL NATURE OF TAX IMPLICATIONS, EACH INVESTOR IS ADVISED TO CONSULT HIS OR HER OWN TAX ADVISER WITH RESPECT TO THE SPECIFIC TAX IMPLICATIONS ARISING OUT OF HIS OR HER PARTICIPATION IN THE SCHEME.**

**A. For the Unitholders**

- Income from the Mutual Fund received by Unitholders would be tax free in the hands of the Unitholders as per the provisions of section 10(35) of the Income-tax Act, 1961 ('Act').
- Under Section 2(29A) of the Act, read with section 2(42A) of the Act, a unit of a Mutual Fund is treated as a long term capital asset if the same is held for more than 12 months. If the unit is held for 12 months or less, the same is treated as a short term capital asset.

Long term capital gains on sale of units, will be taxed under section 112 of the Act. Under Section 112 of the Act, capital gains arising on the transfer of long term capital assets are subject to tax at the rate of 20%. The capital gains will be computed by deducting the expenditure incurred wholly and exclusively in connection with such transfer and the cost as inflated indexed cost of acquisition of the unit from the sale consideration. However, the maximum tax payable on long term capital gains on units is restricted to 10% of capital gains calculated without indexation of the cost of acquisition.

In case of an individual or HUF, being a resident, where the total income as reduced by the long term capital gains is below the maximum amount not chargeable to tax (Rs.100,000 in case of all individuals, Rs. 135,000 in case of women and Rs.185,000 in case of senior citizens), the long term capital gains shall be reduced to the extent of the shortfall and only the balance long term capital gains will be subject to the flat rate of taxation.

In addition to the aforesaid tax, in the case of an individuals, HUFs or Association of Persons (AOP), where the income exceeds Rs. 10,00,000 a surcharge of 10%, in the case of companies and artificial juridical persons a surcharge of 10%, and in case of foreign companies a surcharge of 2.5% of such tax liability is also payable. A 2% education cess on total income tax (including surcharge) is payable by all categories of taxpayers.

- The capital loss resulting from sale of units would be available for setting off against other capital gains made by the investor and would reduce the tax liability of the investor to that extent. However, losses on transfer of long term capital assets would be allowed to be set-off only against gains from transfer of long-term capital assets and the balance long-term capital loss shall be carried forward separately for a period of eight assessment years to be set off only against long-term capital gains.
- Where a person buys any units within a period of three months before the record date and sells such units within nine months after such date, the dividend income on such units being exempt from tax, then the capital loss, if any, on such sale to the extent of dividend income cannot be set off against other gains.
- Where a person buys units (original units) within a period of three months before the record date, receives bonus units on such original units, and then sells the original units within a period of nine months from the record date and continues to hold the bonus units, then the loss incurred on the original units shall not be allowed to be set off against other profits but shall be deemed to be the cost of the bonus units.
- The long term capital gains on transfer of units would not be subject to tax in terms of section 54EC of the Act if the entire capital gain realized in respect of such units is invested within six months of the date of transfer, in bonds which are redeemable after three years issued on or after April 1, 2000 by National Bank of Agricultural and Rural Development, National Highways Authority of India, Rural Electrification Corporation Limited, National Housing Bank or Small Industries Development Bank of

India. However, if the amount invested in bonds is less than the capital gains realized then only proportionate capital gains would be exempt from tax. If the bonds so acquired are transferred or converted into money or any loan or advance is taken on security of such bond, within three years from the date of its acquisition, the amount of capital gains arising from transfer of original asset which was not charged to tax, will be deemed to be the income by way of long term capital gains of the previous year in which bonds are transferred or otherwise converted into money.

7. The long term capital gains on transfer of units would not be subject to tax in terms of section 54ED of the Act if the entire capital gain realized in respect of such units is invested within six months of the date of transfer in equity shares forming part of eligible issue of capital as defined in the said section. However, if the amount invested is less than the capital gains realized, only proportionate capital gains would be exempt from tax. If the equity shares so acquired are sold or otherwise transferred within one year from the date of their acquisition, the amount of capital gains arising from transfer of original asset which was not charged to tax, will be deemed to be the income by way of long-term capital gains of the previous year in which such equity shares are sold or otherwise transferred.
8. Short term capital gains arising to a unitholder will be taxed at the normal rate applicable to that unitholder as per the provisions of the Act.
9. As per the provisions of Section 194K and 196A of the Act, no deduction of tax at source shall be made from income credited or paid by a mutual fund to a Unitholder.
10. As per circular no. 715 dated August 8, 1995 issued by the CBDT in case of resident Unitholders, no tax is required to be deducted at source from capital gains arising at the time of repurchase or redemption of the units.
11. Under Section 195 of the Act, the Mutual Fund is required

to deduct tax at source at the rate of 20% on any long term capital gains chargeable to tax if the payee Unitholder is a non resident. In respect to short-term capital gains, tax is required to be deducted at source at the rate of 30% if the payee Unitholder is a non-resident non-corporate and at the rate of 40% if the payee Unitholder is a foreign company.
